

NEWS RELEASE

Eagle Panels

JUNE 2000

Eagle Panels announces new *Modular Production Ovens.*

Now Modular IR Ovens can now be made to your specifications and shipped to you or you customer directly....**then they are merely bolted together!** These ovens are completely wired and plumbed and have a new 6-Way IR Mounting Bracket for universal adjustment that will give your customer a better method of directing heat control. They are also easily accessed from the outside by special doors.

The following is an example of Eagle's production capabilities.

Assembled With IR Controls

For A Floor Mounted Conveyor

Emitter Access Doors

Wired & Plumbed-Gas IR

6-Way Emitter Mounts

Ready For Shipping

Eagle Panels, a leading manufacturer of industrial noise abatement equipment and engineered thermal products announces its new 6 page brochure depicting its industrial panels in use in noise enclosures and ovens.
